LUTHERAN CONFERENCE

Proceedings of Yesterday's Session at the German Church

After a brief devotion the Chairman of the Conference called the meeting to order. The election of officers was deferred until the

A paper by Rev. C. F. W. Allwardt had been begun at a former session. The conclusion of this was taken up. If a congregation desires to retain the youth in the Church it must see to it that their young are, as much as possible, kept out of bad company; that suitable enterattractive and inviting; that the Church services be made profitable, edifying and attractive. More than that, the Pastor must so prepare his sermon that the young hear it with profit. It must be in their language and simple. The Pastor must watch the attendance at Church, the attendance upon Holy Communion, and at the proper time administer warning and rebuke if the conditions require that.

These thoughts served as a basis for the discussion, and many pertinent remarks were made by the members of Conference.

At 1:30 p. m. Conference met again. The following officers were elected-

Treasurer-Rev. C. Grant, Trenton, O. Rev. J. E. Allbrecht, Weisburg, Ind., then presented a paper on "Why Should Sponsors be presented a paper on "Why Should Sponsors be Orthodox?" Sponsors are those persons who at the baptism of an infant speak for that infant. While their faith or unbelief cannot invalidate that baptism, we yet desire to have believers that hold the true Confession of Faith for Sponsors. It is quite natural that in so solemn a rite one prefers to have all concerned to be united in faith and in conviction. When in the rite prayer is offered it should be the prayer of all, spoken as of one mind. If, however, the Sponsors represent a variety of denominations and a variety of views on baptism, this is made impossible. Usually Sponsors obligate themselves to use their endeavors that the child may be trained up in the nurture and | ... admonition of the Lord. It can readily be seen that if these Sponsors are to redeem their pledge faithfully they should be of one mind, also with the parents and Pastor. First of all, the Sponsors represent the parents. And parents should see to it that their purposes may of the late Colonel W. W. Baldwin was one of be fully carried out in case their children must

WASHINGTON, D. C., Sep. 18th, 1906. The official residences of Colonel Hawkins, Governor of the Home, and all the other officials, are very sumptuous buildings, elegant in oll their appointments inside and out.

There is a large building used for a theater seating 800 persons, and there are G. A. R. halls galore where the old boys meet, smoke and talk and have a good time. There is no post barroom or canteen on the grounds, and For being drunk an inmate is put to work cleaning up the grounds; for a repetition of the offense or chronic jag he is fired from the Home never more to return-he is barred from Para-

DEAF HEARD AGAIN

Astonishing Demonstration Made By Cooper in St. Louis

St. Louis, September 26th, 1906. On Wednesday afternoon some remarkable demonstrations were given in public by T. L. Cooper, or the "Great Cooper," as he is called, who is introducing for the first time in St. Louis the preparations which created a sensation in Eastern cities.

The demonstrations took place at Mr. Cooper's headquarters and were witnessed by several hundred people. As nearly as could be learned the facts were these:

At three o'clock in the afternoon the young man agreed to show what one of his remedies would do for deafness, and agreed to make any one present who was afflicted with deafness hear again in less than three minutes.

There were many deaf people present and about a dozen of these were given the demon stration, consisting of a single application of one of the Cooper preparations.

The hearing of these people was then tested after an interval of between two and three minutes. The test consisted of questions put to them in an ordinary conversational tone at distances varying from five to thirty feet.

The results were remarkable in the extreme Some of these people who were treated had been deaf for a number of years. When the first question was asked a look of amazement would spread over their faces and they would forget to answer the question. As the questions were repeated the surprised look would give way to one of delight. Many were so affected that they burst into tears and were scarcely able to answer the question.

In no single instance, so far as could be learned, would an individual fail to hear. Many were able to hear a finger snap at a distance of thirty feet. At the request of Mr. Cooper questions Miss Alleyne Hamilton left yesterday for were put to them by their friends or by various spectators in an ordinary tone of voice and the questions were readily answered.

In giving an account of these demonstrations Mr. Cooper said:

"The preparation used is not the one with which I accomplish most, as my New Discovery, as it is called, and to which I owe my success, is for the treatment of all forms of stomach trouble and the general breaking down of the system that follows in the wake of diseases of

HIDDEN DANGERS

Danger signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy or a thick, red, ill-smelling urine full of sediment and irregular of passage.

Danger signal No. 2 comes from the back. Back pains, dull and heavy or sharp and acute, tell you of sick kidneys and warn you of the coming of dropsy, diabetes and Bright's disease.
